

# Guessarium User Guide

## Starting a Game

1. Choose a game mode from the main menu.
2. Follow the instructions shown in each mode.
3. You can refresh or come back later — progress in Raildle is saved automatically.

## Game Controls

- Each game has its own unique controls and playstyle. Here's a breakdown of how each one works:
  - **Snuzzle:**
    - **Goal:** Guess the secret cute word in **6 tries or less!**
    - **How to Play:**
      1. Type a 5-letter word using your keyboard.
      2. Press **ENTER** to submit your guess
      3. After each guess, the letter tiles change color to give you clues:
        -  **Green:** Correct letter in the right position.
        -  **Yellow:** Correct letter but in the wrong position.
        -  **Gray:** Letter not in the word.
      4. Keep guessing until you find the word or run out of tries.
      5. You win if you guess the word within 6 attempts!
    - **Tip:** Start with words that use common letters like **A, E, I, O, U, S, T, R, N** to get more clues faster. 🌸
  - **Filmster:**
    - **Goal:** Guess the correct movie using only **3 hints and 3 tries!**
    - **How to Play:**
      1. You'll see **three hidden hint boxes**, each related to a mystery movie.
      2. Tap **"Reveal Hint"** to uncover one clue at a time.
      3. After reading the hints, pick your answer from **four movie options**.
      4. If your answer is correct, the button turns **green**.
      5. If wrong, it turns **red** and you lose one try.
      6. Keep revealing hints if you're unsure — but remember, you only have 3 tries!
      7. The game ends when you guess the movie or run out of attempts.

- **Tip:** Use your hints wisely — the fewer hints you use, the higher your streak score! 🎬
- **Raildle:**
  - **Goal:** Guess the **correct Honkai: Star Rail character** within **5 tries!**
  - **How to Play:**
    1. Type the character's name in the **dropdown list** and click to make your guess.
    2. After each guess, you'll see category feedback in a **color-coded table**:
      -  **Correct Category:** Your answer matches this attribute.
      -  **Wrong Category:** The attribute doesn't match.
    3. Categories include: **Photo, Name, Path, Element, World/Faction, and Weekly Boss.**
    4. Use the feedback to narrow down your next guess.
    5. You win if you identify the correct character before running out of tries!
  - **Tip:** Pay close attention to which categories are correct — each gives a clue to the next guess! 🚀

## Game Feedback

Each game provides **color-coded or visual feedback** to help you deduce the answer:

- **Snuzzle:** Tile colors (Green, Yellow, Gray) show letter accuracy.
- **Filmster:** Button colors (Green for correct, Red for wrong) indicate your answer's status.
- **Raildle:** Table colors display which categories match your guess.

## Saving Progress

Your progress in **Raildle** is saved automatically. For **Snuzzle** and **Filmster**, your session will resume when you revisit the game as long as you don't clear your browser data.
